MOUNTING PROCEDURE

Underwater mounting:

Place fixture on water surface within water feature. Extend power cable through cable loop on middle fixture retainer ring down to water feature bottom and to the outside of water feature. Splice must be made outside of the water.

Lamp, lead wire and lens enclosure are one unit. To change lamp: DO NOT ATTEMPT TO DISASSEMBLE THE LENS ENCLOSURE. Lamp is not accessible inside the lens enclosure unit. Remove lens enclosure with lamp inside from lamp retainer rings. Replace with new lamp-lens enclosure and lead-wire unit.
